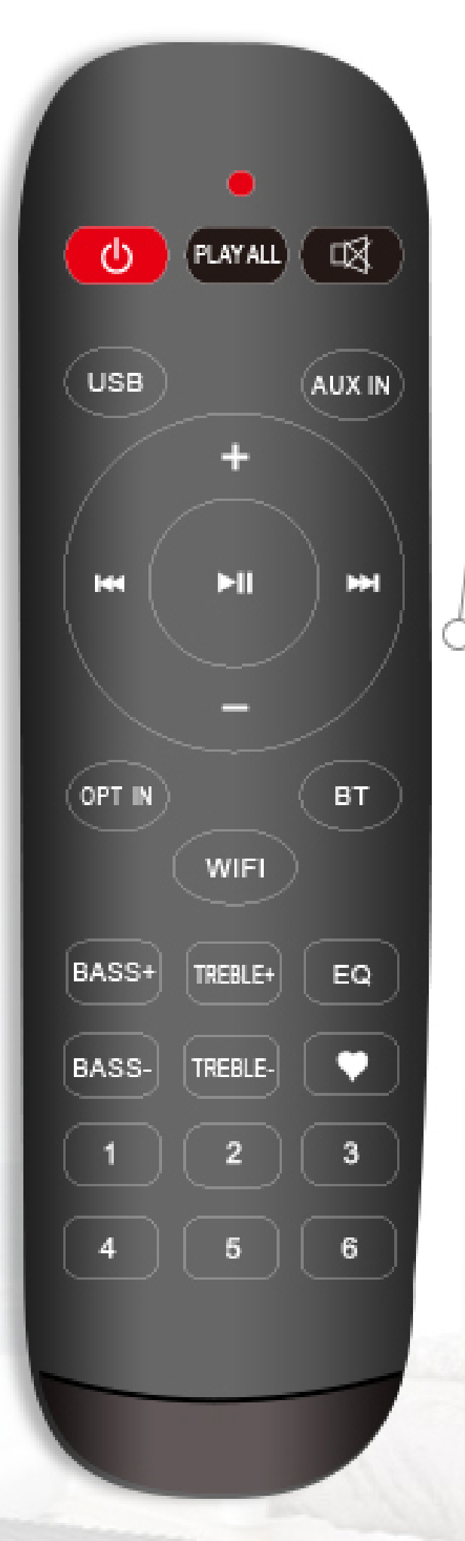
A Perfect Amp for BGM music

With the line output, A50 can perform as a pre-amp, too. It's a whole system audio output, no matter the sources from WiFi, Bluetooth, USB or DLNA. You can connect the line output to another amplifier to set up a larger house BGM.



Dedicated Remote Controller Sit and Play without cell phone

Sometimes,when you come home tired and do not want to use cellphone,just sit and click to play.
